## EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

### *Reasons for allowance*

1. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or reasonably suggest a chassis for holding telecommunications modules comprising the second horizontal surface having a first ridge and a second ridge positioned substantially parallel to but spaced from the first ridge as recited in claim 1; the divider slot being substantially parallel to the plurality of card slots of the first horizontal surface extending to an edge of the first portion as recited in claim 6; a first cover surface substantially perpendicular to the vertical sidewalls and between the first and second horizontal surfaces, wherein the first cover surface has a first substantially vertical portion, a second portion angled with respect to the first substantially vertical portion, and a third portion angled with respect to the first substantially vertical first portion and substantially perpendicular to the second portion as recited in claims 24 and 56; a first baffle surface being perpendicular to the first and second vertical sidewalls and angled with respect to the first and second horizontal surfaces as recited in claims 29 and 72; wherein a cable guide has a horizontal portion, a vertical portion, and a plurality of cable slots; and a plurality of radius limiters disposed within the cable guide with each radius limiter adjacent to at least one of the plurality of cable slots as recited in claim 36; further the first and second ridges have at least one opening between adjacent card slots on the second ridge as recited in claim 61; and further wherein a horizontal channel extends between the first and second vertical

sidewalls and spaces from the horizontal surface, the horizontal channel having a plurality of horizontal card slots extending parallel to the spatial planes of the vertical sidewalls, the horizontal channel having a width of the first dimension less than the width of the first dimension of the horizontal surface as recited in claim 64.

The examiner agrees with applicants' arguments on pages 14-21 in the remarks accompanying with the amendment filed on May 14, 2004, and fully concurs that Ortberg reference does not disclose or suggest all the limitations above.

Claims 1-12, 24-40 and 56-76 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
